

DOHA BRITISH SCHOOL

WAKRA PRIMARY SCHOOL

Topic Web

History

We will look at civilisations that lived in the polar regions and how they adapted to live there

Geography

We will learn about the polar regions, tropics and the equator and identify countries using co-ordinates on an atlas/map

Qatar History

We will be studying about Homeland and Citizenship
We will focus on the concept of homeland and unity links between its citizens

Music

In Music, students will be finishing their unit on Carnival of the Animals, singing new pitches with solfa handsigns, learning new rhythmic notation, and learning about the music stave.

Topic Web Summer 1 Year 3

Science

Our Science topic this term is Animals and Humans. We will look at healthy eating, classifying animals and learn about the human skeleton.

Around the world!

This topic will introduce children to the world we live in, including the poles, tropics and equator. Children will use co-ordinates and locate countries using these.

PE

to acquire underarm bowling action
to acquire basic batting technique
to acquire a variety of fielding techniques
to develop an understanding of basic rules and positional awareness

Literacy

We will be looking at explanation and playscripts. We will explore and identify features of each type of text and write our own

Maths

We will be revisiting addition and subtraction and measure. Our focus will be on mixed word problems, including two step problems. Written methods will also be revised.

Arabic

The negative (Grammar)
The future (Grammar)
Listening & Speaking (Text book)
Mothana (Grammar)
The Dew (Reading)

ART and DT

We will use clay to make a pot based on designs of pots around the world
