

DOHA BRITISH SCHOOL

WAKRA PRIMARY SCHOOL

Trips and Visits

As we will be attending Veterinary Science School, the children will be visiting QWAS or a member of QWAS will be coming to visit our school.

Qatari History

We will be learning about ancient crafts: pearl diving, fishing, weaving and gold manufacturing.

Topic Web

Year 2 – Autumn 2

History

They will continue to learn about Florence Nightingale. They will look more closely at the countries that she visited and will learn about the countries that she 'consulted' with in order to improve conditions of hospitals all around the world.

Geography

Children will learn about the places Florence visited – Florence, UK, Turkey and the places she consulted with to improve conditions – U.S. and India. They will learn about countries, their capital cities and their surrounding seas. They will compare similarities and differences.

Literacy

In Literacy the children will be writing a 'recount'. They will be creating a time line of Florence Nightingale's life and writing a recount as if they were her. They will be then focusing on writing a non-chronological report using the information they have been learning in Science about animals and their habitats.

Spanish

Children will be learning about things that can be found inside a classroom (clock, tables, chairs, white board, computer etc.), numbers 1-60 + counting in 10's, means of transportation, days of the week, months and seasons and tricky Spanish phonics.

The lady with the lamp continued –

This term will be more of a geography Focus on looking at the places in the world Florence visited. Children will be using map skills to locate these places and their surrounding seas. They will change their occupation this term from Nurses to Vets to find out more about how to care for 'animals' instead of 'humans'.

Maths

This term we will continue to look at addition and subtraction. We will be using our knowledge of number bonds to help us as well as using pictorial representations. We will also learn about 2D and 3 D shapes and compare their properties. Finally we will look at symmetry,

Music

Children will be learning about how to write rhythmic notation and how to sing using solfa hand signs. Children will also be listening to a variety of classical music.

P.E.

We will be covering Gymnastics this half term. Pupils will be looking at a variety of ways they can travel, perform rolls and balance.

Science

The children will be visiting Veterinary Science School. They will be learning about living, dead and things that have never been alive. They will learn about animal habitats and the basic needs of different animals. They will learn about how different animals obtain their food by using simple food chains.
