

Trips and Visits

We will be taking a trip to Kidzmondo

DOHA BRITISH SCHOOL

WAKRA PRIMARY SCHOOL

Qatari History

We will be learning about institutions and figures paying attention to heritage in Qatar.

Topic Web

Hedgehogs Topic Web Summer 1

History

We will be learning about the history of space travel, particularly focussing on the first man on the moon.

Science

We will be learning about the movement of the moon, sun and planets and their relation to each other.

Literacy

We will be continuing our novel study and writing our own newspaper report. We will also be revising a variety of English skills as well as learning about stories from other cultures.

Geography

We will be exploring and learning about different countries as a part of our English topic on 'Stories from Another Culture'.

Maths

We will be revising tenths, hundredths and thousandths as well as their equivalent fractions. We will also be comparing, ordering and simplifying fractions as well as finding percentages.

The Solar System

We will be learning about Earth's position in our solar system and how our movement through space causes day and night and the seasons. We will also be learning about the moon's cycle, as well as looking at space travel and any current developments related to the Solar System in scientific news.

ART and DT

We will be designing our own spaceships as well as creating our own chalk pastel planets.

Arabic

Homeland stars (Reading), Adverb (Grammar), The five names (Grammar), allam alshamsia (Writing Grammar), Prose poems about (Writing), listening Skills, Speaking Skills.

We shall start a dance topic this term. This will include expressing ourselves through a variety of means. Working in groups and individually.

Music

Students will be learning about how to read and write music in the treble and bass clefs, new solfa handsigns and rhythmic notation, and will complete a unit on music from around the world.
