

DOHA BRITISH SCHOOL

WAKRA PRIMARY SCHOOL

Trips and Visits

Children will be visiting the Wholesale Market in Doha to buy delicious fruits for their healthy fruit salads. They will pay with this using Qatar Currency (linked to Qatari History)

Qatari History

The children will be learning about the currency.

Topic Web

Geography

Children will focus on the UK and will be learning about the seasonal weather patterns: Spring, Summer, Autumn, Winter. Children will find out about how trees and plants change from one season to another. They will study animals and learn about animals that may 'hibernate' during different seasons and the life cycle of animals/ plants and the seasons in which new life grows. Children will also study plants around the school grounds. They will compare and contrast the weather and plants in the UK to Qatar.

Spanish

Children will learn some vegetables in Spanish (tomate, patatas, zanahoria, pepino, Calabaza, bonito/batata, lechuga, ajo, cebolla and coliflor). Also they will learn means of transportation and numbers from 1 to 20.

Arabic

Me& My family (Reading).
The letters ((ح, ج, خ))

Wildcats Topic Web Spring 2

Science

Children will be learning about the parts of a plant and their basic functions. They will learn about what plants need in order to grow healthily. Children will plant seeds and study their growth and keep a diary of this.

Living Things

In this unit children will learn about the differences between **Living** and **Non Living** things. They will learn that plants are **living** and the different things plants need in order to grow healthily. Children will learn how to plant seeds and look after their very own plant. Children will learn about how plants change in the UK during different seasons. They will compare this to plants in Qatar. Children will also focus on **animals**, understanding that humans are animals too. They will visit the Wholesale Market to buy different fruits and create their own healthy fruit salads. They will also learn about other animals and how the seasons affect these.

Literacy

Children will be recapping 'time words' (first, next, after that, then, finally) and will be using these to write instructions for how to make a healthy fruit salad. They will use either numbers or bullet points to order the instructions. Children will be planting seeds in Science and will write a recount containing the ordered events of how they planted these. They will continue to use the same 'time words' in their recount writing.

Maths

Children will learn to add and subtract confidently to 20. They will learn their number bonds to 10 by heart and use these to solve simple word problems. Children will count forwards and backwards to 100 and find 1 more and 1 less to 100.

Music

Children will be learning how to read and write rhythmic notation, how to play the recorder and how to identify the instruments of the orchestra. Children will also participate in a Production.

P.E

We will be covering team games this half term. We will hopefully begin to build understanding for sharing the ball and how this can help our team. As well as being patient and taking turns.
