WAKRA PRIMARY SCHOOL

Trips and Visits

We will be visiting 'Little Engineer'

Qatari History

We will be finding out about non-material heritage in Qatar as well as the importance of cultural heritage in Qatar.

Topic Web

Hedgehogs Topic Web Spring 1

History

We will be creating a timeline of key events throughout world history. We will also be comparing ancient Aztec life to life nowadays as well as researching the history of Mexico and how it has developed into the country it is today.

Geography

We will be learning about the route that the Aztecs travelled before they settled in the city of Tenochtitlan. As well as this, we will use the atlases to pinpoint where in the modern map Tenochtitlan was.

Spanish

Children will be learning the time including minutes, daily routines linked to times and finally they will listen to a story and they will have to try and understand what the story is about.

Arabic

The importance of time (Reading), 'uslub alnida' (Grammar), Announcement Heritage Village (Reading), Exception: unless - otherwise (Grammar), alnnasakh and Al-Rok'ah (Hand Writing), Pride in Arabic (writing).

Science

We will be completing our Living Things and their Habitats topic. As well as this we will investigate different everyday materials where we will classify their properties.

The Aztecs

We will learn about the history of Central America and be able to place this civilization on a timeline of key periods in world history. We will learn about key events in Aztec history, including the founding of their largest city, Tenochtitlan, and the fall of their civilization. We will also study their beliefs, rituals and everyday life.

P.E.

All pupils will be participating in netball and rounders. This will present a great opportunity for each individual to really develop their hand eye co-ordination. Also we will start to delve into some tactical play such as loading bases.

Literacy

We will be learning how to write a suspense and mystery story where we will focus on similes, alliteration and VCOP. We will also learn about and create our own cinquain poetry.

Maths

We will be focusing on multiplicative reasoning where we will be learning about both written and mental multiplication and division strategies as well as prime numbers and factors. We will also learn about 2D/3D shapes and angles.

ART and DT

We will be re-creating our own version of the Aztec city of Tenochtitlan using clay.

Music

Students will be learning how to read and write music notation in the treble and bass clefs in preparation for writing their own melodies. Students will also learn about the importance of music in film.
